Dear Sir:-

The American Numismatic Society publishes an annual called the American Journal of Numismatics, distributed free to our members and available for non-members at the subscription price of five dollars a year. This publication is devoted to a scientific study of Numismatics, and is not what I judge you to desire. I would suggest therefore that you communicate with the Numismatist, Mr. Frank G. Duffield, Editor, 1811 Mosher Street, Baltimore, Maryland, a monthly magazine devoted to numismatics and published by the American Numismatic Association. This magazine is devoted to a more popular presentation of the subject of coins and medals. Its subscription price is, I believe, $1.50 a year.

Very truly yours,

Assistant to Curator.
